Hidalgo County Water Control & Improvement District 19

Career/Job Opening

Job Title

Water Superintendent

Job Description

Operate & maintain pumping plant facilities including operations of motor units and wells. Responsibilities include meter readings, preparing daily reports, monitor canal water levels, maintain/repair canal gates & meters, testing water quality, water flow measurement and small welding repairs. Other duties include ordering and picking up supplies/materials needed. Operate & maintain backhoe, tractor and shredding equipment. Troubleshoot and perform maintenance of pumping plant equipment and water distribution system. Coordinate work schedule for employees with General Manager.

Required Skills

Must exhibit strong leadership skills, self-motivated, proactive, punctual, and safety minded. Good bilingual English/Spanish communication skills preferred and a positive attitude. Able to work in inclement weather conditions and a flexible work schedule. Computer competency and able to work with MS Word and Excel. Knowledgeable of the Texas Water Code & TCEQ rules and regulations a plus. Ensure that operation personnel are observing all safety/environmental rules and regulations. Ability to work in a team to achieve performance goals set by the District. Able to work independently and be mechanically inclined. Must have a current valid class "C" driver's license from the Texas Department of Public Safety with a satisfactory driving record. Must have and maintain a current Texas Department of Agriculture Private Applicator License. Ability to read and keep accurate records. Some basic knowledge of using surveying equipment. Cost conscience.

Required Experience

High School degree or higher. Pumping and agricultural irrigation experience would be beneficial. Computer literate including proficiency with the internet. Working knowledge of office (calculator, fax & copier) equipment. Safety training in CPR and First Aid.
